

**Jacobs University** is a private, state-accredited, English-language research university in Bremen. We are offering PreDegree, Bachelor, Master or PhD programs in three focus areas: Health, Mobility and Diversity and are involved in the professional development of specialists and managers and in the transfer of knowledge. Our principles are first class research and teaching, international diversity and transdisciplinary cooperation. As an international university we attract highly talented and open-minded students from all over the world. Currently, more than 1,500 students from 110 nations live and study on our residential campus.

The department „ Life Sciences & Chemistry” invites interested candidates to apply for the next possible date as a

## Chemical Technician (m/f/d)

(Full-time, limited for 3 years)

**Job ID 19-71**

### Your responsibilities:

You will be part of an international multidisciplinary team investigating the chemistry of cocoa and chocolate using modern analytical methods. You will be responsible for the receiving and administration of cocoa samples, chemical work-up and purification steps and subsequent chemical analysis, data interpretation and data management.

You should be flexible, team-oriented and show a willingness to learn.

The position is funded and carried out in collaboration with Barry Callebaut, the leading manufacturer of industrial cocoa and chocolate.

### Your qualifications:

- Completed CTA/BTA/MTA or CL training.
- Further work experience is desirable but not essential.
- Good knowledge of English and computer-based data management are required.
- Experience in analytical method development, application of HPLC and hyphenated mass spectrometry techniques are desirable but not essential.

### We offer:

- Working on a modern campus
- Flexible working hours
- Choice of 4 dining halls on campus
- Easy accessibility by public transport and plenty of parking on the premises
- Various health and sports offer
