

Jacobs University is a private, state-accredited, English-language research university in Bremen. We are offering Bachelor, Master or PhD programs in three focus areas: Health, Mobility and Diversity. Our principles are first class research and teaching, international diversity and transdisciplinary cooperation. As an international university, we attract highly talented and open-minded students from all over the world. Currently, approximately 1,500 students from 110 nations live and study on our residential campus.

The department of Computer Science and Electrical Engineering at Jacobs University Bremen invites interested candidates to apply as

External Lecturer (Lehrbeauftragte/r) (m/f/d)

(part-time and limited for one semester)

Job ID 21~42

for several course in the undergraduate program „Robotics and Intelligent Systems“.

Course overview:

- Robotics and Intelligent Systems Lab (Fall 2021), semester hours 2,5
- Introduction to RIS (Spring 2022), semester hours 5
- Automation (Spring 2022), semester hours 5

Detailed information about the program and taught modules/courses can be found in the official [Robotics and Intelligent Systems Handbook](#).

The courses are planned to be taught in-presence, if in-presence teaching is suspended due to COVID-19 circumstances, the courses will be held online and/or hybrid instead.

Candidates can apply for one and more courses.

What we expect:

Applicants have a Ph.D. degree in Computer Science or a related area and have experience in research, teaching and/or practical application in the field. External lecturers will take over the responsibility of teaching for the undergraduate level course(s) as well as its/their examination and grading, and will be reachable for their students also outside the official lecture time throughout the semester. Furthermore, the applicant is expected to be characterized by tolerance and openness and suited to work in an international and diverse environment.

Your Qualifications:

- PhD degree in Robotics or a related discipline or proven practical and applied experiences
- Thorough expertise in the relevant area of the respective course(s)
- Excellent verbal and written communication skills and interest in innovative teaching styles
- Fluent in English, the language of instruction and communication on campus
- Experience in teaching

Successful candidates should be ideally available to begin in September 2021 (fall semester) or February 2022 (spring semester).

Your application:

For further information regarding this position, please contact Prof. Dr. Francesco Maurelli, via email (f.maurelli@jacobs-university.de) or phone (+49 421 200 3111).

Please upload your relevant documents with details on your availability [here in the attached form](#).

The review of applications will begin immediately and will continue until the position is filled.

Jacobs University offers full equality of opportunity to all qualified applications and is an equal opportunity employer.
